ABOUT ME

Motivated and detail-oriented Computer Science undergraduate with a strong foundation in software development, programming, data structures, algorithms, and database management. Passionate about building innovative technology solutions and continuously expanding technical expertise through academic projects and self-directed learning. Adept at problem-solving, teamwork, and adapting to new technologies, with a strong commitment to delivering high-quality results. Seeking an internship opportunity to apply technical knowledge, gain hands-on industry experience, and contribute effectively to a dynamic software development team.

EDUCATION

Bsc (Hons) Computer Science (Undergraduate) — **2025- Present**
Faculty of Computing | Deparment of Computer and data Science
C. GPA : 3.52

G.C.E. Advanced Level Examination (Biological Science Stream) — **2024**
Ananda College Colombo

G.C.E. Ordinary Level Examination — **2021**
Ananda College Colombo

CERTIFICATIONS

- Cambridge English Qualifications (YLE): Starters, Movers & Flyers

PROJECTS

Medicine Availability Tracker

Worked alongside team members using React.js, Java Spring Boot, and Figma during the software development lifecycle.

Smart Vehicle Trading and Managment Systems

Developed a full-stack vehicle trading platform using PHP, Node.js, MySQL, JavaScript, and Tailwind CSS, featuring vehicle comparison, financial calculator, chatbot support, booking system, role-based admin panel, OTP authentication, analytics dashboard, and PDF report generation, within a collaborative team environment.
